

Building a Better Atlanta, One Home at a Time

HABIFACTS

Visit us at www.atlantahabitat.org for more information!

Atlanta Habitat for Humanity constructs quality, attractive, affordable homes.

- Homes are 3 bedroom/1 bath houses or 4 bedroom/2 bath houses. Homeowners pay no interest on their mortgages, saving them an average of \$125,000 over the life of their mortgage.
- Atlanta Habitat homes are constructed using green building standards, producing energy-efficient homes that protect the environment and reduce utility bills.
- Atlanta Habitat relies on the support of house sponsors to help cover construction costs. Each year corporations, faith-based organizations, foundations, and individuals partner to sponsor homes financially and provide 35-40 volunteers on seven consecutive Saturdays (or Sundays to accommodate religious observances of various faiths).
- Five to ten houses are under construction at any given time. Since 1983, Atlanta Habitat has built more than 1,100 homes primarily in the City of Atlanta and Fulton County, housing approximately 4,000 individual family members.

Each homeowner invests 250 sweat-equity hours in building his/her home and others, makes an affordable down payment, leases the home for the first year, makes timely payments during the lease period, and attends at least 12 homeowner education classes.

Monthly mortgage payments typically average less than \$650. Payments include escrow for taxes, insurance, a termite bond, and a maintenance savings fund, in addition to repayment of the loan on the house at no interest.
